

Forsby

Characteristics

Forsby is a newly renovated boulder area along E22. All problems have been recently brushed up. Forsby consists of a hill with boulders and walls in a very beautiful, exciting, wild surroundings. Many problems are on granite with high quality. There is a very high potential for new routes.

Directions

The boulders are located near E22 43 km north of Västervik and are easily accessible. If you are coming from the north, pass the sign Forsby 2 km. After a sign Spångdalen drive 600 m to a little parking spot. The path 200 m leading from the parking to the boulders is marked. If you are driving from the south, you can turn left (sign Spångdalen) and back in the south direction.
