

Marstrand

Characteristics

At the bouldering area of Marstrand you have several overhanging walls as well as caves. Most of the routes are facing north which means nice temperatures even on hot summer days. The area is divided into two sections, 'Roots' and 'Grottan'. 'Roots' is located a couple of hundred metres left of the path leading north from the information board in the parking lot. To get to 'Grottan' you follow the path from the information board for about 100 m and then turn to the right onto a smaller path. Follow the path for 50 m and you will arrive at 'Grottan'.

Directions

The area is positioned 3 km north east of Gamleby. Drive north, through the city, past the folk high-school and past the bridge at Dynestad. Then turn right towards Loftahammar. After about 2 km the sport climbing crag will be visible on your right. The bouldering area is located on your left. There is a parking lot to the right along with an information board about the remains of an ancient castle.

Coordinates
