

SANDV

Directions

Sandvik also called "Bonkers" is located about 8 km from the town to the east of Gränsö, a peninsula. It has a popular shallow beach. Park at the parking lot located at the beach. Go northwest up the hill to the right about 250 meters and you will reach the boulder wall.

Accommodation

Closest camping is Lysingsbadet in Västervik, phone +46490-258000, www.lysingsbadet.se.

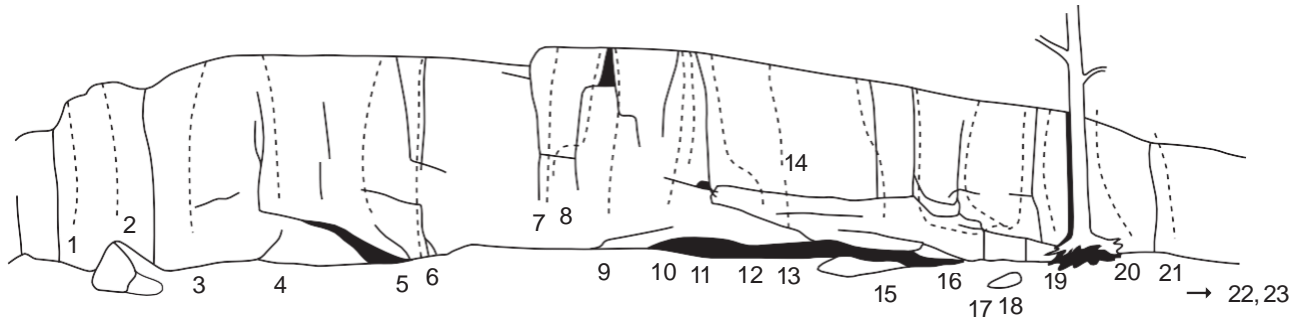

Coordinates

To the parking lot: 16°42'48"O, 57°44'31"N

Characteristics

Low north-facing granite wall about 50 m wide with many vertical cracks that you climb. There are several easy problems. It is also a good traverse wall with many opportunities. Most routes have sit down starts. The proximity to the beach makes it a popular bouldering area. It is primarily västervik climber Tomas Bovinder who has developed the bouldering.
